

HYDRA FACIAL PRE CARE

Before Your Treatment

r

- Do not wear makeup on the day of treatment

2 Days Prior:

- Do not use retinoids, retinols or exfoliating products e.g. hydroquinone, tretinoin, glycolic and salicylic acids

7 Days Prior:

- Avoid beauty treatments such as waxing, laser hair removal of the face, depilatory (hair removing creams), eyebrow tint, peels and micro needling

2 Weeks Prior:

- Wait 2 weeks after anti wrinkle injections and filler treatments to have a Hydra Facial treatment. Anti-Wrinkle and filler treatments may be done on the same day but only after Hydra facial treatment.
- Do not attend if you have had a recent cold, flu, infection or vaccination. You must wait 2 weeks after any of these and be feeling well before having a HydraFacial.
